Federal Bureau of Fisheries Completes Seattle Laboratory

The new North Pacific Fisheries Laboratory at Seattle, just completed by the U. S. Bureau of Fisheries and due to be occupied in the immediate future, sets up a new milestone in the progress of Pacific fishery investigations, and is expected to result in a general acceleration of research on the many major problems concerning the fisheries of the district. It will very greatly facilitate effective organization and administration of research activities along all of the varied lines.

YOU'RE INVITED
